## EXCITEMENT IN FLORIDA

### OVER THE RECENT ORDER OF SURGEON GENERAL HAMILTON.

**They Object to Being Compelled to Remain in the Infected District—The Surgeon General Issues a Statement to the Public—Yellow Fever News.**

JACKSONVILLE, Fla., Sept. 3.—The people here are very much excited over Surgeon General Hamilton's order not to pass Jacksonville refugees beyond Waycross. Commemorative resolutions have been passed and sent to the Florida representatives in congress, and they were urged to take the case before the president at once.

There are hundreds of women and children still here, and these are offered homes and asylums in the mountains of Georgia; yet this man assumes to say that they shall not go. But this order has created such a furor that probably some modification of it will be made at once. It is positively known that at least 115 are still under treatment.

The surgeon general has telegraphed that he will allow refugees to have special trains destined for definite points in North Carolina, provided they give their parole not to go to the seaboard or quarantined towns within ten days after departure from Jacksonville.

There were twenty-three new cases of yellow fever Friday and four deaths. The total number of cases to date is 211; deaths 39.

#### The Surgeon General's Statement.

WASHINGTON, Sept. 3.—Surgeon-General Hamilton has issued the following statement:

#### To the Public:

"Certain criticism mainly based on misinformation concerning the present sanitary regulations have appeared in the daily press, and as these criticisms have a tendency to weaken the hands of the officers engaged in the prevention of the spread of yellow fever, and to induce laxity in the maintenance of quarantine and thereby greatly increase the danger to the whole country, I have thought it expedient to make a general statement of the condition of affairs."

"The United States government, acting through its Marine hospital, is engaged in helping the people of Florida, not in injuring them, and in particular the stricken city of Jacksonville, has been treated with a kindly consideration suited to the calamity which has befallen it. They were permitted to go anywhere they desired so long as the disease was confined to circumscribed areas in the city, but when the city became generally infected then the necessity of placing certain restrictions upon the movements of out-going persons was apparent, and in restricting promiscuous travel from Jacksonville the bureau is looking to the security of the country."

"The dreadful record of the ravages of yellow fever in the towns along the railroad lines leading out of New Orleans in 1878, where there were over thirteen thousand persons affected with yellow fever, of whom nearly seven thousand died, is too fresh in memory to risk its repetition along the Atlantic seaboard. The extension of the disease to Memphis in 1879, where nearly three thousand persons died of the yellow fever might have been prevented, had there been any authority to restrict travel by proper quarantine.

"It may be a fearful alternative to compel persons from Jacksonville to remain within a camp of refugees for a period of ten days before being allowed to go at will, but that alternative is humane in comparison with the results which would follow the admission of the contagion into all the seaports and southern cities, each of which in a short time would itself become a new center of infection. The government has not at any time established a strict cordon sanitaires about the city of Jacksonville, but has opened a camp of refugees in a high, healthy locality and furnished free rations to those detained."

"It has also been authorized at a large expense the building of two hundred pine cabins to shelter those poor who are driven out of infected localities, and it is willing to provide for the further relief of Jacksonville, by furnishing transportation by special excursion trains to any definite point that is safe and has opened its doors, but there are few places willing to receive large numbers of refugees, while it is probably true that the body of a healthy person does not carry the contagion, his clothes do carry it and baggage packed in an infected house is dangerous in the extreme."

"Fumigation stations have been established at proper points, and all baggage will be fumigated which comes from any infected city. I do not think, therefore, that there is any reasonable ground of complaint."

#### JOHN B. HAMILTON."

Governor Perry has telegraphed from Tallahassee to the surgeon general of the Marine hospital as follows:

"Without consent of Nassau county board our promises preclude establishment there of yellow fever hospital as asked by Jacksonville committee."

The surgeon general has received the following dispatch from Dr. Guiteras, who has charge of Camp Perry:

"One hundred and thirty-five at muster. Arrivals fifty, Will discharge twenty-two tomorrow. I understand by telegrams to conductors that I am to send discharged to Folkston, where they will buy tickets for Waycross. Will soon have people to discharge who have no means. What will they do when they get to Folkston?"

#### Will Close for Reorganization.

BRIDGEPORT, Conn., Sept. 3.—The Wheeler & Wilson Sewing Machine company has notified their employees, numbering nearly two thousand, that the shop would be closed for two weeks. President Wheeler says the reason for the suspension is to give opportunity for reorganization of the selling department and for making important alterations in the machinery.

#### Hanging Had No Terrors.

SAN ANDREAS, Cal., Sept. 3.—George W. Cox was hanged here Friday for the murder of his son-in-law, Henry G. Cook, last November. Cox manifested the utmost indifference as to his fate.

Beatin, one of the Detroit pitchers, has been arrested on a charge of bastardy in Allentown, Pa.

## POLITICAL

### Harrison Refuses to Talk Politics at Put-in-Bay—Thurman's Program.

TOLEDO, O., Sept. 3.—The steam yacht Ganges took Gen. Harrison and party to Put-in-Bay, arriving there at 2 o'clock. John Brown, Jr., was one of the committee to escort the party to the stand, which was decorated with flags, evergreens and flowers, and surmounted with a huge banner bearing the words, "Welcome Our Next President." Ex-Governor Foster introduced Gen. Harrison, who made a brief speech. He said he should not discuss party issues, as he and his wife were here to rest. After this remark there was a general handshaking.

There were fully five thousand strangers present, who came by boat from every point on Lake Erie from Detroit to Cleveland. Gen. Harrison will be tendered a reception Tuesday at Fort Wayne, on his homeward trip. He says he will speak at Indiana points during the campaign, but not do much outside.

The general will return to Indianapolis next Tuesday.

It is understood that Gen. Harrison has spent some of his leisure at Middle Bass in preparing his letter of acceptance, and it is believed by his friends that he intends to make it public as soon as he returns to Indianapolis.

#### The Old Roman's Program.

NEW YORK, Sept. 3.—Judge Thurman expected to make the dates of his New York meetings for some time in the latter part of September, but he has been prevailed upon to yield to the desires of the National committee, and will leave for this city September 5.

On the evening of the 6th he will be present at the Democratic meeting to be held in Madison square, at which he will be the principal speaker. This meeting will be under the direct control of the National committee, and efforts are making to have an immense rally of the Democratic hosts.

The party will leave New York on the return trip September 7 and arrive at Columbus Saturday or Sunday following, so that Thurman can be in Columbus during the week of the National encampment of the Grand Army.

#### Hoosier Reformers.

INDIANAPOLIS, Sept. 3.—The Indiana Civil Service Reform association, at a special meeting held Friday, bitterly denounced Senator Blackburn for having contemptuously referred to William Dudley Fouke, its most prominent representative, as a tramp, and sent to Senator Hale a telegram requesting him to send a representative of his committee to Indiana to collect testimony relative to the violations of the civil service law by Democratic government officials.

The Administration Indorsed.

NEW YORK, Sept. 3.—President Gibbons, of the American Annexation society, of New York, made an address on the president's retaliation message before the Cleveland and Thurman club in Hoboken last night. He indorsed Cleveland's administration and declared that the satisfaction which the president demands for every insult to American citizens means the calling out of 50,000 men and a march upon Canada.

#### SPORTING MATTERS.

**Yacht Racing at New York—Regatta at Salt Lake City—Other Notes.**

NEW YORK, Sept. 3.—In the twenty-seven mile yacht race of the Larchmont club Friday, the Boston sloop Chiquita beat the Banshee by one minute and twenty-four seconds. The Banshee beat the cutter Pappoose by four minutes and three seconds. The Chiquita beat the cutter Baboon by six minutes and thirty seconds, and the sloop Nymph by two minutes and fifty seconds. The figures are actual time.

The boats are being remeasured for corrected time, but there is little doubt that the Chiquita is winner. The contest attracted great interest in yachting circles, owing to the strong rivalry among the boats entered, and also as a test of center-board and keel boats. The Chiquita, Pappoose and Baboon are Burgess' models. The Banshee and Nymph were designed by A. Cary Smith. Club topsails were not used.

#### Hanley vs. Needham at Dayton.

DAYTON, O., Sept. 3.—One of the greatest glove contests which have ever been fought in this section took place at an early hour Friday morning five miles south of this city between Joe Hanley, of Boston, and Dan Needham, feather-weight pugilists weighing 130 pounds, with two-ounce gloves. Hanley and forced the fighting from the start, and for thirty rounds kept Needham on the defensive. In the thirtieth round Needham turned about and attempted to force the fighting, but only got in a few body blows.

In the next round Hanley rushed in on Needham and Needham made a glaring foul. The fight was awarded to Hanley.

The spectators would have liked to have seen the fight fought to a finish. The fight lasted for over two hours, and there were about one hundred and fifty spectators. The fight was in open air.

#### The Salt Lake Regatta.

SALT LAKE CITY, Sept. 3.—In the regatta Friday, the Delawares won the senior double scull race in 11:31; Modocs, second, in 11:50; Farragut, third, in 11:52. Sylvan distanced Corbet, of the Farragut, won the single scull race in 12:07; Goodrich, of the Modocs, second, in 12:20; Flemming, of the Sylvans, third, in 12:30. Koerf, of the Delawares, broke his boat.

The Modocs won the four oared race in 9:52; Farragut second, in 10:02; Sylvans third, in 10:40.

#### The Bicycle Record Broken.

NEWPORT, R. I., Sept. 3.—W. W. Van Wagoner made ten and one-half miles on a bicycle in 4 minutes and 5 seconds, beating previous records by five seconds.

#### Canada's Champion Again Beaten.

NEWPORT, R. I., Sept. 3.—Thomas Pettit, the American champion, again beat Harry Boakes, the Canadian champion, at court tennis Friday.

#### Sporting Notes.

Dave Paris and "the Black Cyclone" will fight soon on a barge in the Ohio river.

Joe Lannon wants to fight Kilrain for the championship and a purse.

Beatin, one of the Detroit pitchers, has been arrested on a charge of bastardy in Allentown, Pa.

## RUIN AND DESOLATION.

### HOT SPRINGS, ARKANSAS, VISITED BY A WATERSPOUT.

**Thirteen Lives Reported to Have Been Lost in the Confusion Which Followed. Property Greatly Damaged—Six Men Drowned in a Colorado Cloudburst.**

HOT SPRINGS, Ark., Sept. 3.—A waterspout has wrought ruin and desolation in the city of Hot Springs. The storm struck the town about 11 o'clock Thursday night from a northwardly direction. It was accompanied by a stiff cool wind, though not strong enough to produce damage. Rain fell in torrents from 11 to 1 o'clock without intermission or cessation. Indeed, those who were up and witnessed the awful scene describe it as one never before seen by them. The vivid flashes of lightning displayed, as it were, great sheets of falling water.

At the close of the storm great and ominous sounds, mingled with shouts of people and cries of distress, went up from the valley, and such citizens as were in the vicinity of the creek and ravines went forth to render assistance. The flood on Central avenue, the principal thoroughfare, assumed the form of an angry river, whose rushing tide swept everything movable on its bosom. For over half an hour the avenue was transformed into a torrent fifty yards wide. Barrels, boxes and parts of houses came down on the tide and were left strewn on the sidewalks. Several large hotels were flooded to the depth of four feet with murky waters. Many buildings were totally wrecked. Six persons are known to be missing, five of whom have been found dead in wrecked buildings. The damage to property is estimated at \$100,000.

#### Desolation Beyond Description.

LITTLE ROCK, Ark., Sept. 3.—George W. Brown, of Lancaster, Pa., and C. H. Coolidge, of Cincinnati, visitors arrived here Friday evening from Hot Springs and say that the desolation is beyond description. They report thirteen people drowned. Nine bodies have been recovered and inquests have been held on four. The lost are mostly colored people. Owing to despair and confusion they could not learn the names of the drowned or the amount of damage done. Houses all along the central street are badly undermined, and those damaged will have to be rebuilt. Telegraph wires are down and it is impossible to get further particulars.

#### Waterspout in Kentucky.

FLEMINGSBURG, Ky., Sept. 3.—A waterspout burst Friday morning along the line of the Cincinnati & South eastern railway, between this place and Hillsboro, six miles east of here, washing out trestling, bridges and fills, causing the discontinuance of trains and doing great damage to fencing. Probably the greatest money loss will fall on the tobacco planters along the track of the water, their crops all being washed up and ruined.

#### A Colorado Cloudburst.

PUEBLO, Col., Sept. 3.—Seven cowboys encamped on Beaver creek, just west of Pike's Peak, Tuesday night, were swept away by a cloudburst, and six of them were drowned. Their bodies were scattered along the bed of the stream miles from the camp.

#### NEWS FROM THE Isthmus.

#### Twenty-Two Persons Killed by Indians.

OTHER NOTES.

SAN FRANCISCO, Sept. 3.—By the arrival of the steamer San Blas, Panama dates to August 21st were recognized.

A massacre by Indians took place on the 14th, just near the boundary lines of the departments of Suezalengo and Totonican. A surveying party engaged in fixing the boundaries of the two departments was fired upon, and Don Carlos Rosol, the commander of the military escort, and several of the soldiers and assistants, numbering in all twenty-two persons, were killed.

Six hundred and twenty-five thousand acres of land in Columbia have been transferred to the canal company by the government. A portion of this land has already been surveyed, and its transfer will immediately render them valuable.

Martin Boshell, vice consul of the United States, died in Bogota.

Cardinal, a well-known tenor, was recently bitten by a mad dog in Buenos Ayres, and at once successfully underwent the Pasteur treatment.

#### Saved By a Boy.

FINDLAY, O., Sept. 3.—The morning passenger train on the Toledo, Columbus & Southern railway, while crossing the Nickel-Plate road, six miles north of this city, broke in two on the down grade, with all the trainmen on the forward section, which consisted of the engine and baggage car. A mad race between the two sections then began, and continued five miles, until at last a sixteen-year-old boy, by the name of Willie Brennan, succeeded in getting the passenger coaches stopped just as a crash seemed inevitable. There were about forty passengers in the two coaches, many of them men, but none grasped the situation but affairs.

#### House Demolished by a Freight Train.

CHICAGO, Sept. 3.—A train of freight cars on the Burlington road was backed off a switch at 7:30 Friday evening, demolishing the house of Mrs. Keller, No. 73 DeKoven street. Martin Hogan, the engineer, could not see the end of the switch and the cars dashed into the little houses. Mrs. Keller with her son John, his wife and two children were eating supper at the time. All escaped injury except Mrs. Keller, whose left arm was bruised. The building is a total loss, the damage reaching \$1,200. Two express wagons standing beside the house were also demolished.

#### Charged With Being a Pension Shark.

RACINE, Wis., Sept. 3.—A man giving the name of Maj. Gen. Hovey, of Washington, was arrested Friday on the charge of being a pension shark. He represented himself as being a pension examiner and attempted to prevail upon Mrs. Goobtbehua, W. C. Jones and others to allow him to collect the pensions at the same time asking a heavy fee and claiming that he had authority from the government to collect pensions. After being arrested he confessed that he was a fraud. He was taken to Milwaukee by the United States marshal.

#### Found Murdered In Bed.

LISBON, Dak., Sept. 3.—Charles Johnson was found dead in bed yesterday morning, with his skull split open, his face and head terribly bruised, and the bed saturated with blood. Wednesday night some tramps broke into his house and demanded alcohol, but failed to get any. It is supposed the same men made a second raid, and murdered the old man. He lived alone.

## STANIFORD IS INNOCENT.

### Joe Lambert Confesses That He Killed B. F. Walker at Louisville.

LOUISVILLE, Ky., Sept. 3.—When B. F. Walker was killed Thursday night the police and the public thought that young Frank Standiford, son of the late Dr. E. D. Standiford, was the murderer. After the crime had been committed, Standiford and a man named Patton were arrested, locked up in a cell, and the charge of murder placed opposite the former's name on the jail slate.

It was 3:30 o'clock Friday morning before even the jail officials knew that young Standiford was innocent of the charge, for not until that hour was the real murderer found. It was Joe Lambert, an ex-fireman and formerly a member of the life savings crew, who did the shooting, and who when arrested confessed that he had killed Walker. He was caught at Fourth and the river after 8 o'clock in the morning, and when questioned made the following statement:

"When I heard the quarreling I came out of Mollie Snyder's house of ill-fame and saw Walker strike Emma Reed in the face. I remonstrated with him, and he began to call me hard names. When he started at me with a spring-back knife to defend myself and save my life I drew my pistol and shot him. I did it in self-defense."

When Frank Standiford was arrested he was intoxicated, and after being placed in a cell, he laid down and slept soundly. He would neither affirm nor deny the charge of murder, and as the real murderer was unknown at the time, and as circumstances pointed strongly to the millionaire's son as the criminal, he was arrested, but it developed later that he was innocent of the charge.

In the morning at 10 o'clock Standiford was dismissed from custody upon motion of the prosecuting attorney. Coroner Miller held an inquest and gave a verdict in accordance with the above facts. Lambert's plea will be self-defense. As no knife such as he describes was found upon the body of the pleading is thought to be a weak one.

### DEMOCRATIC TICKET.

For President,  
GROVER CLEVELAND,  
of New York.

For Vice President,  
ALLAN G. THURMAN,  
of Ohio.

For Congress,  
THOMAS H. PAYNTER,  
of Greenup County.

### A Life-long Republican Gives Paynter a Send-off.

Professor John S. Mavity, editor of the Vanceburg Times, was a gallant soldier on the Union side and has been a life-long Republican. He has the following to say in the last issue of the Times of our candidate for Congress:

Hon. Thomas H. Paynter has been selected by the Democracy of this district for Congressional standard bearer, and he is worthy of the trust confided in him. Mr. Paynter is a native of Lewis County and a man for whom the Times has the greatest esteem. When we were looking for a friend, he stood ready to help, and through his aid and kindly influence we are to-day indebted for being able to demonstrate to the world the superior advantages of Lewis County in a boom issue of the Times. We know of no man in the district more worthy of a political boom at the hands of the Democracy than Thomas H. Paynter, and none that we would more cheerfully give space in this issue, not on account of his being a Democrat, but for the reason that our personal good wishes for him transcend any party affiliation that we possess.

He also in the same issue speaks of the nomination of Major Burchett by the Republicans as follows:

A telegram from Catlettsburg at 4 p.m. Tuesday, August 28th, says that D. J. Burchett, of Lawrence County, was nominated by the Republican convention, as candidate to try to beat Thomas H. Paynter, for a seat in the Fifty-first Congress. From an independent standpoint it looks like the Republicans will be left this time, but we have the satisfaction of knowing that a man worthy the respect and esteem of even the rankest Republican, will be our next Congressman; for Thomas H. Paynter is a native of Lewis County, and is one of those grand young men of whom she has produced many, who have carved out a name and fame for themselves by honest endeavor and persevering effort.

THE Democracy of Nicholas County is a unit for Thomas H. Paynter for Congress, while the Republicans are lukewarm for Burchett, their nominee.

THE Greenup Gazette says Hon. Thos. H. Paynter would have been elected in 1882 had he received the nomination. Well, he is stronger now, and will be elected in November. But Democrats should ever bear in mind that they must go to work and see that the full vote is polled for him.

THE following Maysville horses are entered in the races to be trotted at Paris next week:

Parker & Fitzgerald's b. f. Lady Fitz by Enterprise, dam Endrowman.

Clift & Fitzgerald's b. m. Pearl Medium by Happy Medium, dam by Gentle Breeze.

Clift & Fitzgerald's b. s. Alcande by Alycone, dam Lady Carr, (dam of Administrator 22).

Clift & Fitzgerald's b. g. D. C. S. by St. Elmo. J. W. Fitzgerald's b. c. McAlister by Egbert, dam by Bill Adams.

There is a large list of entries in the various classes, and the racing promises to be spirited.

## POLITICAL POINTERS.

### Prospects for a Democratic Victory in November Growing Brighter Day by Day.

### People Who Are Coming Out for Cleveland, Thurman and Tariff Reform—Navy Notes.

Seymour, Ind., Aug. 29.—(Special.)—The Democrat of to-day publishes the following communication:

"We, the undersigned soldiers, having served in the following companies and regiments, and never having voted anything but the Republican ticket, desire to say that we, after having examined the vetoes of President Cleveland in private pension bills, approve of his course, and wish to say to our comrades that we will each of us vote for Grover Cleveland for President and the entire Democratic State ticket for the first time.

"D. L. Peacock, Co. C, Thirty-third Indiana; G. W. Mitchell, Twenty-second Indiana; Jno. Smith, Co. K, Twenty-second Indiana; Jos. Dingman, Seventh and Sixteenth Indiana; Wm. Kramer, Co. D, Fourth Ohio Cavalry."

The Valatie Rough News prints the following letter from Mr. Erastus Corning:

"I note that you say a correspondent of the New York Press was in your town the day you wrote to me, reporting that he had an interview with me in which I said that I had always been a Democrat, but intended to vote for Harrison and Morton this year. No such interview has ever taken place. I have very large iron and steel interests in this country, and if I am spared until election I intend to vote and do all that I can for the re-election of Grover Cleveland. I am most decidedly in favor of tariff reform as proposed by the Democratic party, firmly believing it to be for the best interests of the laboring man as well as the capitalist."—Cleveland Plain Dealer.

The Rev. Dr. William De Witt Hyde, President of Bowdoin College in Maine, and one of the most prominent among the new generation of educators, although bred a Republican, has been driven by the free whisky and high tariff platform of the party to support the Democracy in this campaign, and is soon to state the reasons for his course in an address to his fellow-citizens of Brunswick.

The tariff is an indirect tax. The protective tax is of this kind. It is a tax on the poor man, and as poor men are more in number they pay the most of this tax. The more children a man has the more tax he pays. The more comforts he gives his family the more tax he pays.—Buffalo (N. Y.) Courier.

The San Francisco Daily Reporter (independent) says: "The Reporter will not support Harrison for the Presidency of the United States. It will do all that it can to defeat him. Personally we have nothing against him. But his policy—all his utterances and acts while he was a comparatively free agent and master of his own acts—was pro-Chinese, and anything we can legitimately do to prevent him from reaching the White House we shall do."

The New York Evening Post prints a list of one hundred and forty prominent manufacturers, many of whom formerly voted the Republican ticket, who now declare that they will vote the Democratic ticket in this contest. These manufacturers represent nearly all of the principal industries in the country.

Cleveland Plain Dealer: "They are coming by the hundreds and thousands. The latest to desert the ranks of Republicanism is John Stephenson, the great car builder, who has voted the Republican ticket since the days of the party organization. Mr. Stephenson is for Cleveland and reform."

J. Milton Turner, of St. Louis, formerly minister to Liberia under Mr. Hayes, who is now Chairman of the Colored National Democratic Committee, says that in the West, especially in Illinois, Indiana and Michigan, the colored vote will be about equally divided between the two great parties. There will be about 100 colored speakers on the Democratic side.

There are 200 labor papers in the country, of which only one supports Harrison, about a dozen are non-committal, and the rest are for Cleveland.

After a long review of General Harrison's record the Nation comes to the conclusion that as the advocate of centralization, the defender of reckless pension schemes, the friend of Hennepin Canal jobs, General Harrison is not a safe man to be President.

James G. Blaine brought home from Europe thirty-two trunks and a score of parcels and bags, containing products of "pauper labor" in England, France and Scotland. He came across the ocean on a free pass, it is said, in a new ship owned by "British free traders" and built by the "pauper labor" of England.

His interests in the American workingmen is in his tongue, not his pocket, and his jabber against foreign goods and foreign labor is all gotten up to delude and catch the workingmen of this country.

The Republicans say that the Mills bill reduction of taxation from 47 per cent. to 40 per cent. is free trade, because it would lead to a further reduction of taxation. In other words they fear that the people would be so much pleased with the Mills bill, if made a law, that they would demand more, and a heap more of it. And their fears are well grounded, too.—Louisville Times.

### A LAND OF REFUGE.

### Latter Day Saints Preparing to Emigrate to Mexico.

NEW YORK, Sept. 3.—The Utah Mormons are looking to Mexico as a land of refuge. They have already purchased 4,000,000 acres in the domain of the Zuni Indians, and have secured a government concession for the improvement and working of about 10,000,000 acres of timber and mining land.

It is now understood in Utah that the church is operating on a definite plan to gradually remove all the faithful to Mexico. The allotment of families who are to go is made at the president's house. The names of the male members of the church are thrown together in a box and then drawn out. Every tenth is marked for departure to Mexico, and after the drawing has taken place every tenth man is notified, and given a certain length of time in which to dispose of his worldly possessions and take his departure. If he owns property he is required to sell it out at once. There is a pretty fair demand for property in Utah from the incoming Gentile tide, and, as a rule, the properties are sold to Gentiles. If it is found impossible, however, to unload in this way, the church orders an appraisal, and takes it off the man's hands, so that he can proceed to the new territory unhampered by any possessions in Utah. It is likely that several thousands of Mormons will leave the territory this winter. Many of them object to the emigration, even after they have been drawn, but the order of the church is imperative.

Height of Meteorological Stations. Of the present very limited number of high stations for making meteorological observations there are only two in Europe which exceed 3,000 meters in height, being about 10,000 and 11,000 feet respectively. Among those in this country Pike's peak, which has an altitude of 14,100 feet, exceeding thus, by more than 3,000 feet, any in Europe. These great heights are much more accessible on this continent than in Europe, there being five in America where 11,000 feet or more is reached by railroads built for facilitating mining work; the highest of these in North America is Mount Lincoln, in Colorado, the mining works on which are 14,297 feet above the sea—Public Opinion.

### Cotton Planters Discouraged.

ALEXANDRIA, La., Sept. 3.—Cotton planters from different parts of this section are all discouraged at the crop prospects. Some complain of worms and of rain washing off the poison. All say that the bottom crop of bolls is rotting, and the seed in the open cotton is sprouting, and that the crop will be cut off not less than 40 per cent. It rains about twice every twenty-four hours, with no appearance of its stopping. Dispatches from many points in Louisiana and Mississippi complain of worms and much rain.

### Excessive Drought—Many Fires.

MONTPELIER, Ind., Sept. 3.—Great damage has been done to fencing, corn-fields and isolated small buildings by fire, which, because of excessive drought, spread rapidly all about this city. A large field of clover north of town was burned Friday morning. The smoke was so thick during the afternoon that lamps were necessary.

## DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.  
ROSSER & McCARTHY,  
Proprietors.

MONDAY EVEN'G, SEPT. 3, 1888.

"When idle millions plead for work  
Their families to keep,"  
The Democrats "walk up to taw"  
And make their clothing cheap;  
They give the wool for idle looms  
That labors' busy hands  
May make the goods misrule has made  
Us buy from foreign lands.

NOTE—Consel Schoenhof, at Tunstall, England, has furnished the State Department, under date of June 5, 1888, with the following: "The manufacturing cost per pound of finished woolen cloth is 33 cents in America against 38 cents in England, 5 cents less in America; but the wool costs 38 cents in America, on account of the taxes. In other words, if we had wool at the same cost as the English (free wool) we could produce at 64.31 cents what it costs in England 69.90 to produce. From this it will be seen that wool cloth with free wool can be made here cheaper than England can make it."

### A Serious Accident.

Mr. and Mrs. D. R. Lindsay, of the St. Charles Hotel, started to the vicinity of Lewisburg yesterday afternoon to spend the evening with relatives. They were in a buggy and were accompanied by their children, Willie and Maude. When opposite the residence of Mr. and Mrs. J. W. Fitzgerald on East Third street, one of the front wheels suddenly came off. This frightened the animal, which began kicking violently, and parties who were near expected to see all the occupants of the vehicle seriously injured. Mr. Lindsay retained a firm grip on the lines, however, and his wife and little daughter were soon extricated from their dangerous situation. His son, Willie, was thrown out at this point by a sudden plunge of the horse, one of the hind wheels of the buggy passing over the little fellow's abdomen. Dr. T. H. N. Smith had reached the scene by this time, and finally got control of the animal. Mr. and Mrs. Lindsay escaped with a few light scratches. Their daughter was not injured, but their son was found to have sustained painful wounds. The little fellow was removed to his home where Dr. Owens was summoned and dressed his injuries. He suffered much last night, but was resting easier this morning.

### The Huntington Bridge.

President Ingalls, of the Chesapeake and Ohio and Big Four Roads, says that work on the Huntington bridge, now in course of construction, will be pushed with vigor, and that the channel span, a portion of which was recently carried away by the drift and high water, will be completed by the 20th of October.

The work of driving new piles upon which to erect the false-work was commenced Saturday. Work will be prosecuted both day and night until the channel span is completed. An electric light plant will furnish the workmen light by night.

The contractors expect to have nearly a thousand men engaged on the work when everything is ready, so that a day and night force can be worked. The iron for the new traveler is now being got out at the bridge company's works. Every piece that was in place and went down when the false-work let go is being duplicated, and will be used if the iron that was used before is found to be damaged in the least. The contractors are on their mettle now, and the work of construction will be pushed as rapidly as possible. It is expected that with good luck from now on the bridge will be completed by the first of next January.

### Conductor Butler Assaulted by a Negro.

The Lexington correspondent of the Commercial-Gazette says a dastardly assault was committed by a negro on Con-Henry Butler, of the Kentucky Central Railroad, near Rowland Station, early Saturday morning. Several negroes, among them Butler's assailant, got on the train at that station for Paris. They were evidently members of some order, being dressed in uniform and all wore sabers. They took seats in the ladies' coach, and one of them lit a cigar, and, with his feet cocked up on an opposite seat, proceeded to smoke it, to the annoyance of a number of lady passengers. When the conductor came through the car to collect fares he informed the colored gentleman that if he wanted to smoke he must go to the front car. This angered the negro, and during the war of words which passed between him and Butler, one of the former's companions hit the latter over the head with his saber, cutting through his cap and inflicting a serious scalp wound two inches long. His assailant has not as yet been apprehended.

### A Fine Minstrel Entertainment.

Goodyear, Cook & Dillon's minstrel entertainment Saturday night was one of the best ever given here. All did well in their specialties, and the house rang with applause time and again. The Dilions, Leech Brothers, John Stiles, Geo. H. Edwards and Charlie Goodyear all rank high in their profession, and they fully sustained their reputation Saturday night.
